## 2024 Activity Report(1st submission) Summary

The year 2024 began with a tumultuous start with the Noto Peninsula earthquake on New Year's Day. In order to achieve gender equality, the Japanese government has started to focus on eliminating the wage gap between men and women, but this year's Equal Pay Day has been set back to May 2 from April last year. Japan BPW believes that we need to enhance our activities to change this status quo.

January 27th: Eastern Japan Block Study Group (by Nagoya Club)  
March 8th-9th:IFBPW Leader's Summit  
March 11th-21th CSW68
